This is O'Neill's Butchers

There are lots of different sounds and smells in a butchers. One of these Relaxation boxes will be in the shop. I can ask to use something from it like the ear plugs or air fresheners if I need to.

They sell different types of fresh meat, eggs vegetables and fruit. There might be a meaty smell in the shop. I can use items from the Relaxation box if I need to.

I can ask the butcher for the items I would like to buy. There may be some other people waiting to be served. When it is my turn, the butcher will ask me "What would I like?"

SuperValu

This is the store room. The butcher prepares the meat here. The machines can be noisy.

I can pay for my items here

The staff are happy to help me with any questions I might have.
